OBJECTIVE

Full Stack Developer with practical experience building scalable web applications using React.js, Node.js, and MongoDB. Skilled in REST APIs, debugging, and clean code with a strong problem-solving mindset.

SKILLS

Languages: JavaScript (ES6+), TypeScript, Python (Basics), C

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap 5, Responsive Design

Backend: Node.js, Express.js, REST APIs, JWT Authentication, MVC Architecture, WebSockets (Socket.io)

Databases: MongoDB, MySQL

Cloud & Tools: Git, GitHub, Vercel, Render, Postman, npm, AWS (Basics), CI/CD

Payments & Integrations: Stripe API, Razorpay API, LLM APIs (OpenAI API for chatbot, translation, and automation)

EXPERIENCE

Simtrak Solutions Pvt Ltd, Kolkata — Web Developer Intern, July 2025 - Nov 2025

- Responsible for frontend development, backend implementation, database design, project infrastructure, payment integration, and third-party integrations.
- Worked on Online Nursery, Fellowship, Job Portal, and Healthcare projects, developing responsive and scalable web features.
- Built reusable and maintainable React components to improve UI consistency, streamline frontend development, and reduce development time by 20% across multiple projects.
- Implemented responsive UI for cross-device compatibility and integrated REST APIs to enable dynamic data rendering and efficient frontend-backend communication.

Sinfolix Technology Pvt Ltd, Nagpur — Frontend Developer Intern, Jan 2025 – April 2025

- Improved website layout structure, responsiveness, and visual consistency to deliver a better user experience across desktop and mobile devices.
- Collaborated with a development team on a shared project using Git and GitHub for version control, managing branches, pull requests, and code reviews in an Agile workflow.

PROJECTS

Mess Management System – (MERN, JavaScript, Tailwind CSS, REST APIs) **Live Demo**

- Assisted in debugging UI issues and optimizing frontend code to improve performance and maintainability.
- Architected and developed a full-stack Mess Management System using MERN stack with modular frontend and scalable RESTful backend.
- Built reusable React components, designed MongoDB schemas, developed REST APIs, and implemented Admin Dashboard with role-based access control.

Imagify – (MERN, JavaScript, Stripe API, Razorpay API, Tailwind CSS) **Live Demo - GitHub**

- Designed and built a full-stack MERN SaaS platform on Vite, integrating ClipDrop, Stripe and Razorpay APIs to provide a seamless image transformation and monetization service for content creators.
- Enhanced performance by cutting image processing time by 20% and reducing cart abandonment by 15% through streamlined UX and secure, multi-gateway payment processing.

EDUCATION

B. E (Computer) – CGPA: 7.12 **2022 - 2025**

SSBT College of Engineering and Technology, Jalgaon

Coursework: Data Structure & Algorithms (60+ Problems Solved), Database Management Systems, Operating Systems, Computer Networks, Object-Oriented Programming, Software Engineering

Higher Secondary Certificate (HSC) – 79.67% **2021 - 2022**

SNDT College of Science and Commerce, Pachora
